SAVINGS ON US

A SOLAR ARRAY WILL BE INSTALLED ON DC8 TO TARGET AN EPC A+ RATING.

This will make the unit use minimal energy to operate, resulting in reduced energy costs and a smaller carbon footprint. This makes DC8 Net Zero regulated energy use (target EPC A+ rating) & measured, reduced and mitigated embodied carbon (in line with the UKGBC Net Zero Carbon Framework).

The array can be extended in size through Prologis Essentials to further reduce Unregulated Operational Energy requirements.
